

**TABLE OF CONTENTS**

| <u>Section</u> |  | <u>Page</u> |
|----------------|--|-------------|
| 3.             | Affected Environment .....   | 3-1         |
| 3.1            | Affected Environment at the Yucca Mountain Repository Site at the Conclusion of Site Characterization Activities ..... | 3-1         |
| 3.1.1          | Land use and Ownership .....   | 3-6         |
| 3.1.1.1        | Regional Land Use and Ownership .....  | 3-6         |
| 3.1.1.2        | Current Land Use and Ownership at Yucca Mountain .....   | 3-9         |
| 3.1.1.3        | Potential Repository Land Withdrawal .....   | 3-9         |
| 3.1.1.4        | Native American Treaty Issue .....   | 3-11        |
| 3.1.2          | Air Quality and Climate .....  | 3-12        |
| 3.1.2.1        | Air Quality .....  | 3-12        |
| 3.1.2.2        | Climate .....  | 3-15        |
| 3.1.3          | Geology .....  | 3-17        |
| 3.1.3.1        | Physiography (Characteristic Landforms) .....  | 3-17        |
| 3.1.3.2        | Geologic Structure .....   | 3-28        |
| 3.1.3.3        | Modern Seismic Activity .....  | 3-32        |
| 3.1.3.4        | Mineral and Energy Resources .....   | 3-34        |
| 3.1.4          | Hydrology .....  | 3-34        |
| 3.1.4.1        | Surface Water .....  | 3-35        |
| 3.1.4.1.1      | Regional Surface Drainage .....  | 3-35        |
| 3.1.4.1.2      | Yucca Mountain Surface Drainage .....  | 3-35        |
| 3.1.4.2        | Groundwater .....  | 3-39        |
| 3.1.4.2.1      | Regional Groundwater .....   | 3-40        |
| 3.1.4.2.2      | Groundwater at Yucca Mountain .....  | 3-50        |
| 3.1.5          | Biological Resources and Soils .....   | 3-70        |
| 3.1.5.1        | Biological Resources .....   | 3-70        |
| 3.1.5.1.1      | Vegetation .....   | 3-70        |
| 3.1.5.1.2      | Wildlife .....   | 3-72        |
| 3.1.5.1.3      | Special Status Species .....   | 3-73        |
| 3.1.5.1.4      | Wetlands .....   | 3-74        |
| 3.1.5.2        | Soils .....  | 3-74        |
| 3.1.6          | Cultural Resources .....   | 3-76        |
| 3.1.6.1        | Archaeological and Historic Resources .....  | 3-77        |
| 3.1.6.2        | Native American Interests .....  | 3-79        |
| 3.1.6.2.1      | Yucca Mountain Project Native American Interaction Program .....   | 3-79        |
| 3.1.6.2.2      | Native American Views of Affected Environment .....  | 3-81        |
| 3.1.7          | Socioeconomics .....   | 3-82        |
| 3.1.7.1        | Population .....   | 3-84        |
| 3.1.7.2        | Employment .....   | 3-86        |
| 3.1.7.3        | Payments-Equal-to-Taxes .....  | 3-90        |
| 3.1.7.4        | Housing .....  | 3-91        |
| 3.1.7.5        | Public Services .....  | 3-91        |
| 3.1.8          | Occupational and Public Health and Safety .....  | 3-93        |
| 3.1.8.1        | Radiation Sources in the Environment .....   | 3-95        |
| 3.1.8.2        | Radiation Environment in the Yucca Mountain Region .....   | 3-98        |
| 3.1.8.3        | Health-Related Mineral Issues Identified During Site Characterization .....  | 3-100       |
| 3.1.8.4        | Industrial Health and Safety Impacts During Construction of the Exploratory Studies Facility .....                     | 3-101       |
| 3.1.9          | Noise and Vibration .....  | 3-101       |

| <u>Section</u> |   | <u>Page</u> |
|----------------|---|-------------|
| 3.1.9.1        | Noise Sources and Levels .....  | 3-102       |
| 3.1.9.2        | Regulatory Standards .....  | 3-102       |
| 3.1.9.3        | Vibration .....   | 3-103       |
| 3.1.10         | Aesthetics .....  | 3-104       |
| 3.1.11         | Utilities, Energy, and Site Services .....  | 3-106       |
| 3.1.11.1       | Utilities .....   | 3-106       |
| 3.1.11.2       | Energy .....  | 3-108       |
| 3.1.11.3       | Site Services .....   | 3-110       |
| 3.1.12         | Waste and Hazardous Materials .....   | 3-110       |
| 3.1.12.1       | Solid Waste .....   | 3-110       |
| 3.1.12.2       | Hazardous Waste .....   | 3-111       |
| 3.1.12.3       | Wastewater .....  | 3-111       |
| 3.1.12.4       | Existing Low-Level Radioactive Waste Disposal Capacity .....                        | 3-111       |
| 3.1.12.5       | Materials Management .....  | 3-112       |
| 3.1.13         | Environmental Justice .....   | 3-112       |
| 3.1.13.1       | State of Nevada .....   | 3-113       |
| 3.1.13.2       | Clark County .....  | 3-118       |
| 3.1.13.3       | Lincoln County .....  | 3-118       |
| 3.1.13.4       | Nye County .....  | 3-118       |
| 3.1.13.5       | Inyo County, California .....   | 3-118       |
| 3.2            | Affected Environment Related to Transportation .....                                | 3-118       |
| 3.2.1          | National Transportation .....   | 3-119       |
| 3.2.1.1        | Highway Transportation .....  | 3-120       |
| 3.2.1.2        | Rail Transportation .....   | 3-121       |
| 3.2.1.3        | Barge and Heavy-Haul Truck Transportation .....                                     | 3-121       |
| 3.2.2          | Nevada Transportation .....   | 3-121       |
| 3.2.2.1        | Environmental Baseline for Potential Nevada Rail Corridors .....                    | 3-122       |
| 3.2.2.1.1      | Land Use and Ownership .....  | 3-124       |
| 3.2.2.1.2      | Air Quality and Climate .....   | 3-133       |
| 3.2.2.1.3      | Hydrology .....   | 3-134       |
| 3.2.2.1.4      | Biological Resources and Soils .....  | 3-139       |
| 3.2.2.1.5      | Cultural Resources .....  | 3-151       |
| 3.2.2.1.6      | Socioeconomics .....  | 3-155       |
| 3.2.2.1.7      | Noise and Vibration .....   | 3-156       |
| 3.2.2.1.8      | Aesthetics .....  | 3-158       |
| 3.2.2.1.9      | Utilities, Energy, and Materials .....  | 3-160       |
| 3.2.2.1.10     | Environmental Justice .....   | 3-160       |
| 3.2.2.2        | Heavy-Haul Truck Route and Intermodal Transfer Station Environmental Baseline ..... | 3-161       |
| 3.2.2.2.1      | Land Use and Ownership .....  | 3-163       |
| 3.2.2.2.2      | Air Quality and Climate .....   | 3-164       |
| 3.2.2.2.3      | Hydrology .....   | 3-165       |
| 3.2.2.2.4      | Biological Resources .....  | 3-170       |
| 3.2.2.2.5      | Cultural Resources .....  | 3-175       |
| 3.2.2.2.6      | Socioeconomics .....  | 3-178       |
| 3.2.2.2.7      | Noise and Vibration .....   | 3-178       |
| 3.2.2.2.8      | Aesthetics .....  | 3-179       |
| 3.2.2.2.9      | Utilities, Energy, and Materials .....  | 3-181       |
| 3.2.2.2.10     | Environmental Justice .....   | 3-182       |
| 3.2.2.2.11     | Existing Traffic on Candidate Routes for Heavy-Haul Trucks .....                    | 3-182       |

| <u>Section</u>  | <u>Page</u> |
|---|-------------|
| 3.3 Affected Environment at Commercial and DOE Sites .....                                | 3-183       |
| 3.3.1 Site Environmental Factors .....  | 3-184       |
| 3.3.1.1 Commercial Sites .....  | 3-184       |
| 3.3.1.1.1 Land Use and Ownership .....  | 3-184       |
| 3.3.1.1.2 Socioeconomic Environment .....   | 3-184       |
| 3.3.1.1.3 Radioactive Effluents .....   | 3-186       |
| 3.3.1.1.4 Occupational and Public Health and Safety .....                                 | 3-186       |
| 3.3.1.2 DOE Sites .....   | 3-188       |
| 3.3.1.2.1 Land Use and Ownership .....  | 3-188       |
| 3.3.1.2.2 Socioeconomic Environment .....   | 3-188       |
| 3.3.1.2.3 Radioactive Effluents .....   | 3-189       |
| 3.3.1.2.4 Occupational and Public Health and Safety .....                                 | 3-189       |
| 3.3.2 Regional Environmental Factors .....  | 3-190       |
| 3.3.2.1 Regional Inventories of Spent Nuclear Fuel and High-Level Radioactive Waste ..... | 3-191       |
| 3.3.2.2 Climatic Factors and Material .....   | 3-191       |
| 3.3.2.3 Groundwater Parameters .....  | 3-192       |
| 3.3.2.4 Affected Waterways .....  | 3-192       |
| 3.3.2.5 Affected Populations .....  | 3-194       |
| References .....  | 3-194       |

## LIST OF TABLES

| <u>Table</u>   | <u>Page</u> |
|--|-------------|
| 3-1 Regions of influence for the proposed Yucca Mountain Repository .....  | 3-3         |
| 3-2 Existing facilities, structures, and disturbances at Yucca Mountain .....  | 3-4         |
| 3-3 Nevada land areas and controlling authorities .....  | 3-7         |
| 3-4 Current land administration and public accessibility to the analyzed land withdrawal area .....                            | 3-11        |
| 3-5 National and Nevada ambient air quality standards .....  | 3-13        |
| 3-6 Highly generalized stratigraphy summary for the Yucca Mountain region .....  | 3-21        |
| 3-7 Tertiary volcanic rock sequence at Yucca Mountain .....  | 3-23        |
| 3-8 Characteristics of major faults at Yucca Mountain .....  | 3-31        |
| 3-9 Estimated peak discharges along washes at Yucca Mountain .....   | 3-39        |
| 3-10 Chemistry of surface water in the Yucca Mountain region .....   | 3-40        |
| 3-11 Perennial yield and water use in the Yucca Mountain region .....  | 3-48        |
| 3-12 Concentrations of selected water quality parameters in the regional groundwater .....                                     | 3-49        |
| 3-13 Hydrogeologic units in the unsaturated zone at Yucca Mountain .....   | 3-53        |
| 3-14 Water chemistry of perched and pore water samples in the vicinity of Yucca Mountain .....                                 | 3-56        |
| 3-15 Aquifers and confining units in the saturated zone at Yucca Mountain .....  | 3-62        |
| 3-16 Water withdrawals from wells in the Yucca Mountain vicinity .....   | 3-66        |
| 3-17 Differences between annual median elevations and baseline median elevations .....   | 3-67        |
| 3-18 Water chemistry of volcanic and carbonate aquifers at Yucca Mountain .....  | 3-68        |
| 3-19 Results of 1997 groundwater sampling and analysis for radioactivity .....   | 3-69        |
| 3-20 Soil mapping units at Yucca Mountain .....  | 3-75        |
| 3-21 Sites in the analyzed land withdrawal area potentially eligible for the <i>National Register of Historic Places</i> ..... | 3-78        |

| <u>Table</u> |  | <u>Page</u> |
|--------------|--|-------------|
| 3-22         | Distribution of Yucca Mountain Project and Nevada Test Site employees by place of residence .....  | 3-82        |
| 3-23         | Baseline values for population, employment, and economic variables, 2000 to 2035 .....   | 3-84        |
| 3-24         | Population of incorporated cities and selected unincorporated towns, 1991 to 2000 .....  | 3-87        |
| 3-25         | Clark County employment by sector, 1980 to 2000 .....  | 3-89        |
| 3-26         | Nye County employment by sector, 1980 to 2000 .....  | 3-89        |
| 3-27         | Lincoln County employment by sector, 1980 to 2000 .....  | 3-90        |
| 3-28         | Enrollment by school district and grade level .....  | 3-92        |
| 3-29         | Hospital use by county in the region of influence .....  | 3-93        |
| 3-30         | Radiation exposure from natural sources .....  | 3-96        |
| 3-31         | Comparison of health and safety statistics for mining activities from the Bureau of Labor Statistics to those for Yucca Mountain during excavation of the Exploratory Studies Facility ..... | 3-101       |
| 3-32         | Estimated sound levels in southern Nevada environments .....   | 3-102       |
| 3-33         | Benchmark ground vibration criteria for buildings and human annoyance .....  | 3-105       |
| 3-34         | Electric power use for the Exploratory Studies Facility and Field Operations Center .....  | 3-110       |
| 3-35         | Regions of influence for rail implementing alternatives .....  | 3-124       |
| 3-36         | Land ownership for the candidate rail corridors .....  | 3-125       |
| 3-37         | Surface-water-related resources along candidate rail corridors .....   | 3-135       |
| 3-38         | Surface-water-related resources along unique segments of corridor variations .....   | 3-137       |
| 3-39         | Hydrographic areas (groundwater basins) crossed by candidate rail corridors .....  | 3-138       |
| 3-40         | Hydrographic areas crossed by unique segments of corridor variations .....   | 3-139       |
| 3-41         | Biological resources in or near the Caliente Corridor .....  | 3-141       |
| 3-42         | Biological resources in or near the Carlin Corridor .....  | 3-143       |
| 3-43         | Biological resources in or near the Caliente-Chalk Mountain Corridor .....   | 3-144       |
| 3-44         | Biological resources in or near the Jean Corridor .....  | 3-146       |
| 3-45         | Biological resources in or near the Valley Modified Corridor .....   | 3-147       |
| 3-46         | Percentage of the Caliente Corridor with selected soil attributes .....  | 3-149       |
| 3-47         | Percentage of the Carlin Corridor with selected soil attributes .....  | 3-150       |
| 3-48         | Percentage of the Caliente-Chalk Mountain rail corridor with selected soil attributes .....  | 3-150       |
| 3-49         | Percentage of the Jean Corridor with selected soil attributes .....  | 3-150       |
| 3-50         | Percentage of the Valley Modified rail corridor with selected soil attributes .....  | 3-151       |
| 3-51         | Number of previously recorded archaeological sites along candidate rail corridors including variations .....   | 3-152       |
| 3-52         | Historic period linear cultural resource properties intersected by potential rail corridors and variations .....   | 3-153       |
| 3-53         | Cultural resource properties close to proposed rail corridors and listed on State or National Registers of historic places .....   | 3-154       |
| 3-54         | Regions of influence for heavy-haul implementing alternatives .....  | 3-162       |
| 3-55         | Land areas under consideration for candidate intermodal transfer station sites .....   | 3-163       |
| 3-56         | Surface-water-related resources at potential intermodal transfer station sites and along candidate routes for heavy-haul trucks .....  | 3-166       |
| 3-57         | Hydrographic areas (groundwater basins) crossed by candidate routes for heavy-haul trucks .....  | 3-169       |
| 3-58         | Number of archaeological sites along 0.2-kilometer-wide corridors containing the candidate heavy-haul truck routes .....   | 3-176       |
| 3-59         | Listed cultural resource properties close to proposed heavy-haul truck routes .....  | 3-176       |
| 3-60         | Existing levels of service along candidate routes for heavy-haul trucks .....  | 3-183       |
| 3-61         | Proposed Action quantities of spent nuclear fuel and canisters of high-level radioactive waste in each geographic region .....   | 3-191       |
| 3-62         | Regional environmental parameters .....  | 3-192       |

---

| <u>Table</u> |  | <u>Page</u> |
|--------------|--|-------------|
| 3-63         | Ranges of flow time for groundwater and contaminants in the unsaturated and saturated zones in each region ..... | 3-192       |
| 3-64         | Public drinking water systems and the populations that use them in the five regions .....                        | 3-194       |

## LIST OF FIGURES

| <u>Figure</u> |  | <u>Page</u> |
|---------------|--|-------------|
| 3-1           | Land use and ownership in the Yucca Mountain region .....  | 3-8         |
| 3-2           | Land use and ownership in the analyzed land withdrawal area and vicinity .....   | 3-10        |
| 3-3           | Wind rose plots for 10 and 60 meters above ground in the proposed repository facilities vicinity .....   | 3-16        |
| 3-4           | Basin and Range Physiographic Province and Great Basin Subprovince .....   | 3-18        |
| 3-5           | Simplified geologic map showing calderas of the southwest Nevada volcanic field in the Yucca Mountain vicinity .....   | 3-19        |
| 3-6           | Physiographic subdivisions in the Yucca Mountain vicinity .....  | 3-22        |
| 3-7           | General bedrock geology of the proposed repository Central Block Area .....  | 3-25        |
| 3-8           | Simplified geologic cross-section of Yucca Mountain, west to east .....  | 3-26        |
| 3-9           | Types of geologic faults .....   | 3-29        |
| 3-10          | Mapped faults at Yucca Mountain and in the Yucca Mountain vicinity .....   | 3-30        |
| 3-11          | Surface areas drained by the Amargosa River and its tributaries .....  | 3-36        |
| 3-12          | Site topography and potential flood areas .....  | 3-37        |
| 3-13          | Boundaries of Death Valley regional groundwater flow system .....  | 3-42        |
| 3-14          | Estimated potentiometric surface of the Death Valley region .....  | 3-43        |
| 3-15          | Groundwater basins and sections of the Central Death Valley subregion .....  | 3-44        |
| 3-16          | Conceptual model of water flow at Yucca Mountain .....   | 3-51        |
| 3-17          | Correlation of generalized stratigraphy with unsaturated and saturated hydrogeologic units in the Yucca Mountain vicinity .....  | 3-52        |
| 3-18          | Cross section from Northern Yucca Mountain to Northern Amargosa Desert, showing generalized geology and the water table .....  | 3-58        |
| 3-19          | Aquifer porosity and effects on permeability .....   | 3-61        |
| 3-20          | Selected groundwater data-collection sites in the Yucca Mountain region .....  | 3-65        |
| 3-21          | Land cover types in the analyzed land withdrawal area .....  | 3-71        |
| 3-22          | Traditional boundaries and locations of tribes in the Yucca Mountain region .....  | 3-80        |
| 3-23          | Socioeconomic region of influence .....  | 3-83        |
| 3-24          | Estimated populations to 2035 for the region of influence and the State of Nevada .....  | 3-88        |
| 3-25          | Population distribution within 80 kilometers of the proposed repository site, 2000 estimate and 2035 projection, based on the State Demographer and Local Agencies' Baseline ..... | 3-94        |
| 3-26          | Existing Nevada Test Site electric power supply .....  | 3-109       |
| 3-27          | Minority communities in Nevada .....   | 3-114       |
| 3-28          | Low-income communities in Nevada .....   | 3-115       |
| 3-29          | Minority census blocks in the Las Vegas metropolitan area .....  | 3-116       |
| 3-30          | Low-income census block groups in the Las Vegas metropolitan area .....  | 3-117       |
| 3-31          | Visual Resource Management classes along the potential rail corridors .....  | 3-159       |
| 3-32          | Visual Resource Management classes along the potential routes for heavy-haul trucks .....  | 3-180       |
| 3-33          | Commercial and DOE sites in each No-Action Alternative analysis region .....   | 3-185       |
| 3-34          | Major waterways near commercial and DOE sites .....  | 3-193       |
